Need-to-Know Information

Explanation of Surcharges

Surcharges include (i) a Regulatory Charge (which helps defray various government charges we pay including government number administration and license fees); (ii) a Federal Universal Service Charge (and, if applicable, a State Universal Service Charge) to recover charges imposed on us by the government to support universal service; and (iii) an Administrative Charge, which helps defray certain expenses we incur, including: charges we, or our agents, pay local telephone companies for delivering calls from our customers to their customers; fees and assessments on our network facilities and services; property taxes; and the costs we incur responding to regulatory obligations. **Please note that these are Verizon Wireless charges, not taxes. These charges, and what's included, are subject to change from time to time.**

Attention Nevada Customers

Effective January 1, 2017, the Nevada Universal Service Fund rate will increase to an effective rate of 0.0856 percent from 0.0718 percent of assessable telecommunication charges. This surcharge appears in the "Surcharges" section of your bill, labeled as "NV Universal Service Fund". This surcharge is a Verizon Wireless charge, not a tax, and is subject to change.
