

September 12, 2017 Angel De Fazio Annual C/S

You deserve the best actor award for your performance last night regarding the 1pm consumer sessions. IT WAS STANDARD UNTIL YOU CAME ON BOARD! APPARENTLY WHEN THE MEDIA IS HERE YOU ADDRESS ITEMS YOU WERE INFORMED ABOUT BEFORE AND CONCERTEDLY IGNORED!!!!!!!!!! Not to neglect the fact, you are HOLDING a consumer session on the FIRST NIGHT of Rosh Hashana, in Elko at 6pm.

EVERY CHAIR before consumer sessions, came and PERSONALLY introduced themselves to people in the audience...guess, you can't associate with ratepayers?

Additionally, PRIOR to YOU coming, after public comments, they were ALLOWED to COMMENT AGAIN, if there were additional comments to be made, ANOTHER way you are SUPRESSING public comments.

You said last night that you weren't going to comment on the BCP's Motion, but, you rendered your endorsement of it. So HOW IS THAT not A CONFIRMATION OF YOUR VOTE?

You showed up at the legislature and ON THE RECORD endorsed BILLS! You are NOT allowed to cite opinions on pending legislature, you are ONLY allowed to provide information! This has been the STANDAND according to Cohen, Tanner.

Also, you went to the IFC and whined that you are OVER WORKED and UNDERSTAFFED, that your people are HIGHLY versed in utility regulation. YET, you put out ads for Senior Attorneys, with ONLY ONE YEAR of legal experience...this ON THE JOB TRAINING on the backs of ratepayers is UNACCEPTABLE! Bring them in as trainees, as your current Sr Attorneys are going to have to spoon feed them as to your NAC's etc. E-ABC

On 11/30/16 you DISSOLVED the Admin agenda and merged it with the Utility agenda. FYI, they are TWO separate practices, with the ADMIN agenda the PUBLIC COMMENTS ARE ALLOWED to be CONSIDERED, unlike with utility items.

BEFORE you came, ACCORDING to your INTERNAL MANUAL, policy section 1.3, there were LOGS of visitors, which you HAVE SUPPRESSED! So that there is NO RECORD now, of who is meeting with the PUC, so much for OPEN & TRANSPARENCY E-ABC

When people do records requests, you claim you are UNDERSTAFFED and CAN'T respond for MONTHS in your 5 day response letter. IF your people who

are addressing them, were actually working, not acting as your entourage to legislature meetings, where they SAY NOTHING, they can respond.

Your LIES about costs to obtain records, and EXTORTION fees for items that are ON THE COMPUTER, are being provided to the ACLU, showing your intention to impede access to readily available records.

Claiming you have to redact, when the redacting is DONE ON THE COMPUTER, you can then save the document under another name, then CLAIMING there are printing charges is FRAUD AND DECEPTION, when the requester asked for THEM to be either, emailed or in office inspection ON YOUR COMPUTER!!!!

The ONGOING use of citing NAC 703.115 AND 704.0097, to deviate from statute, claiming in the public interest, is not acceptable. This is NOT your 'we can't do, what we want to do with the evidence, so lets use this to get our way', NEEDS TO STOP!

When asked to define in the public interest, Joe goes into his catatonic stare, and avoids the question.

The PUC consistently falsified info to Nevada Employee Directory, when notified of the mistakes REFUSES to correct them. Claiming that it's the fault of that department, when in fact, when contacting the department who does the updates, cites 'we only enter what we are provided by the Commission's HR Department', which of course, is headed by Barbie! *E- D*

Policy 1.3

OFFICE VISITORS

POLICY: Office Visitors

PURPOSE: To clarify the appropriate procedures for office visitors.

PROCEDURE: The Commission regularly has visitors in the building. All visitors except those attending a noticed Commission proceeding (i.e. agenda meeting, hearing or prehearing conference) are required to check-in and check-out with reception and issued a visitor badge. This includes employee family members, delivery and repair personnel and individuals that are here for scheduled and non-scheduled meetings with Commission employees.

A. Reception Procedures:

1. The visitor is greeted and asked how he/she can be helped. If the visitor is here to attend a noticed proceeding, he/she is directed to the appropriate hearing room.
2. If the visitor is here for any other reason, the following steps are to be followed:
 - a) The visitor is provided with a Visitor Badge and asked to wear the badge during the visit and to return prior to leaving the building.
 - b) The appropriate employee is notified that the visitor has arrived.
 - c) The visitor is then asked to have a seat and informed that the employee will be with them shortly.

B. Escorting Visitors

1. The visitor must be escorted from and back to reception. At no time, shall a visitor be allowed unescorted within the non-public employee work areas.

SANDOVAL'S SOLAR SCAM

The Governor has been out in the sun too long. Instead of letting a sleeping subsidy lie, he signed legislation “restoring net metering, which compensates electricity customers at the retail rate for the excess solar power that they generate and remit to the grid,” the Wall Street Journal reports.

Governor Sandoval would never be accused of being a free-market zealot, but, it's not exactly even middle-of-the-road Republicanism to reinstate a subsidy that unfairly shifts costs to lower-income customers without rooftop solar panels.

The Governor doesn't really care about Joe Solar Sixpack, it's his friend and taxeater Elon Musk that Sandoval is moving the sun and moon for. “More than consumers, solar rooftop-leasing companies like Sunrun, Vivint and Tesla are the primary beneficiaries of net metering,” the WSJ writes. “These companies install solar panels for free and pocket all of the subsidies, including the 30% federal renewable-investment tax credit.”

If you are still unsure as to who he is looking out for, the Governor took pen in hand and signed the bill, “at a private warehouse owned by Tesla, a company upon which Nevadans have bestowed \$1.3 billion in tax breaks,” writes Bob Stump, former Arizona congressman.

“Sandoval's signature highlights all that is untenable about rooftop solar leasing, in which customers sign long-term contracts to lease rooftop solar systems with little or no upfront costs,” Stump explains. “Rooftop solar ranks among the least cost-effective forms of renewable energy. Yet its lobby holds powerful sway among the political class: Without a smorgasbord of generous tax credits, subsidies and local incentives granted by politicians and regulators, leased rooftop solar would make zero financial sense for consumers.”

SolarCity was purchased by Musk's car company,

Tesla, but that hasn't taken off the bulls-eye Federal authorities have on the company. The Daily Caller reports, “SEC's investigation places the company squarely in the hairs of the financial regulators who have grown increasingly concerned about SolarCity's bizarre business model.” It turns out, the company has been “inundated' with thousands of lawsuits across the country, all of which named SolarCity as a defendant in foreclosure actions,” writes Chris White.

SolarCity and Sunrun send salespeople door to door and harass customers at Home Depot attempting to hook them into the solar scam. Of course, these unwitting customers are promised lower electricity bills, but it turns out just the opposite. And since customers lease the solar panels and the lease rate increases 2.9 percent a year, solar customers are upside down in a hurry on leases as long as 20 years.

The solar business is all about harassment and force. Customers around the country complain that solar panel companies threaten litigation if the consumers didn't proceed with solar panel transactions. Others claimed solar company representatives threatened to lien their homes. The media loves solar and constantly touts nonsense about sun power taking over the world, but the business would burn up and fry away without subsidies which fleece consumers.

But everything is sunny over at the Governor's mansion. Sandoval did what Master Musk told him, prop up a failing business model with government force. **LW**

Good evening, my name is Rudy Zamora, and I'm the Program Director of Chispa, which is Nevada's conservation voice for the Latino community.

I'm also speaking today as part of a broad community of clean energy advocates that has been active in supporting new policies to advance our state's leadership on this critical issue. The coalition includes groups like Faith Organizing Alliance, Uplift Foundation, Institute for a Progressive Nevada, Nevada Conservation League, the Sierra Club, and the League of Women Voters, just to name a few. We recognize investing in Nevada's local clean energy resources – like solar, wind, and geothermal – will mean lower costs, a diverse energy portfolio, and local jobs.

The eyes of the nation were on Nevada this year, as lawmakers enacted nine major clean energy laws in a historic legislative session. Nevada advanced its position as a clean energy leader in the west and nationwide, and laid the foundation for a strong and growing clean energy economy in the state.

The vast majority Voters, consumers, community members and lawmakers have spoken. These new laws provide an important framework for the PUCN to advance renewable energy, next-generation technology, and efficiency in Nevada. I want to thank you for the leadership you've already demonstrated as you prepare to implement these critical new laws.

We're especially excited about the new energy efficiency measures. Saving power and saving money are things that every consumer can relate to, and by creating jobs for audits and retrofits, it's a win-win for our economy. Folks in low-income communities have had a limited ability to gain all the health and financial benefits that come from energy efficiency programs, so we ask you to please weigh all of the compounding benefits that come from targeting assistance to those households as you implement those new laws in the coming months.

Thank you for rejecting the recent proposal that would have not only hampered the rooftop solar industry, but burdened all of us with higher fixed bills. A rate change like that reduces the incentive and potential for energy efficiency, and it hurts low-income and low-use
